“ I remember Pat as being bright and bubbly, loving cats with me, always a joy to be around. We would ride our bikes around together looking for cute cats to pet. We would ride all the way down Theall road. That road measured exactly 6/10 of a mile and I would always run it with my friend Danielle who also enjoyed riding with her and visiting with her. She said the funniest thing about me was I was always trying to get a photo taken with my dad's hawkeye camera or Polaroid which was new at the time and I would have to have his shorts over my pajamas wearing his T-shirt and standing on my head or hands LOL anyway I'll see you in Paradise Pat and condolences to the beautiful family each of them cuter than the next such a Sharon and Dougie and Glenn.
